It is based on the major premise that disease or abnormal function may be caused by abnormal nerve impulse transmission or expression due to biochemical factors, compression, traction, pressure or irritation upon nerves as a result of bony segments, especially of the spine or contiguous structures, either deviating from normal juxtaposition or function which irritates nerves, their receptors or effectors.

(2) "Instrument" means a device employed or applied in accordance with the principles and techniques of chiropractic science, which is used in the practice of chiropractic to diagnose, analyze, treat or prevent the cause of departure from complete health and proper condition of the human.

Diagnosis and analysis may include physical examination, specimen analysis, drawing of blood, blood-analysis and the use of x-ray and other instruments.

In this section, "co-payment or deductible provisions" means any terms in a contract of insurance with a third party whereby the patient remains financially obligated to the chiropractor for payment.

**Note:** It is no violation of this rule for a chiropractor to adjust fees, but the fee charged must be accurately reported to any third party payor. It is no violation of this rule for a chiropractor to provide treatment without any charge.

(2) “Preliminary patient history” means the process of gathering baseline data regarding a patient, including the nature of the chief complaint, family history, and medical history. The “preliminary patient history” is intended to provide a starting point for further inquiry by the chiropractor into the patient’s condition.

(3) “Unlicensed person” means a person who does not possess a valid license to practice chiropractic in this state pursuant to ch. 446, Stats.

**History:** Cr. Register, January, 1995, No. 469, eff. 2-1-95; CR 03-082: am. (1) and (2) Register July 2004 No. 583, eff. 8-1-04.

(1) The chiropractor maintains records by which the chiropractor has verified that the unlicensed person has successfully completed a didactic and clinical training program approved by the board and covering the performance of the delegated service. Successful completion of a training program is demonstrated by attaining proficiency in the delivery of that service to minimally competent chiropractic practice standards as measured by objective knowledge and skills testing.

(2) The chiropractor exercises direct supervision of the unlicensed person performing the delegated service.

(3) The chiropractor retains ultimate responsibility for the manner and quality of the service.

**History:** Cr. Register, January, 1995, No. 469, eff. 2-1-95; CR 03-082: cr. (3) Register July 2004 No. 583, eff. 8-1-04.

The chiropractor shall comply with s. Chir 4.04 before delegating the performance of x-ray services to an unlicensed person.

**Note:** The coursework specified in s. Chir 10.03 provides the training required by s. Chir 4.04. A list of board-approved programs is available upon request from the Department of Safety and Professional Services, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708.

**History:** Cr. Register, January, 1995, No. 469, eff. 2-1-95.

**Chir 10.05 Physiological therapeutics.** A chiropractor may delegate the performance of patient services through physiological therapeutics that include but are not limited to heat, cold, light, air, water, sound, electricity, massage, and physical exercise with and without assistive devices to an unlicensed person only if the delegation is consistent with s. Chir 10.02 and the unlicensed person has adequate training, education and experience to perform the delegated function to minimally acceptable chiropractic standards.
