

## Q & A

### **NFPA 1 Section 10.11.6. Does NFPA 1 Section 10.11.6.1 apply to electric grills? (September 1, 2014)**

Yes. Under section SPS 314.01 (6) (a), the Department has determined that an electric grill is one of the similar devices which are referenced in NFPA 1 section 10.11.6.1 and therefore cannot be used on the balconies and at the other locations described in that section – unless the grill is listed and does not have an exposed heating element.
