

Submittal for Review of an Alternate Plumbing System

Industry Services Division
Department of Safety and Professional Services

A completed plumbing review application form (SBD-6154) must be submitted by the designer, manufacturer, or distributor. **Four** copies of the following information about the product, must be submitted with each application form:

1. Copies of sales brochures, catalogs, and other promotional materials.
2. Written detailed description of the function of the plumbing system.
3. Detailed assembly drawings.
4. The sizes, colors, locations, information shown, and methods for labeling the plumbing system. (Actual labels are acceptable.)
5. Complete installation instructions, including detailed installation drawings indicating all connections between the system and other components of the plumbing system.
6. Complete maintenance procedures with maintenance intervals indicated.
7. Complete operation instructions.
8. A list and copy of all national and international standards to which the plumbing system conforms.
9. Complete information on all specifications for construction materials and components of plumbing system.
10. A signed report, by an independent testing laboratory or the manufacturer, which concludes that the plumbing system functions and performs in accordance with assertions submitted to the department.

NOTES:

1. Information can be claimed as confidential by a submitter. Such claims must be made at the time of submittal by permanently marking, "confidential business information" on each page containing information referred to as trade secret under ss. 134.90 (1) (c) which states:

"Trade Secret" means information, including a formula, pattern, compilation, program, device, method, technique or process to which all of the following apply:
 - a. The information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.
 - b. The information is the subject of efforts to maintain its secrecy that are reasonable under the circumstances.
